

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Public hearing to adopt by resolution the 200506 Financial Plan and Budget and the 2005-06 Appropriations Spending Limit

MEETING DATE: June 1, 2005

PREPARED BY: Finance Director

RECOMMENDED ACTION: That Council receive testimony from the public and consider adoption by resolution of the Fiscal Year 2005-06 Financial Plan and Budget and the 2005-06 Appropriations Spending Limit.

BACKGROUND INFORMATION: Council has received the budget document and has heard presentations by City staff on May 4, 2005, May 11, 2005, May 18, 2005 and May 24, 2005 in regards to the Fiscal Year 2005-06 Financial Plan and Budget. The City Clerk has called for a public hearing in order to hear testimony in regards to the Budget and Financial Plan. Staff will be available to answer questions and respond to comments from the public or additional questions by Council.

The proposed budget as submitted by the City Manager totaled \$158,365,276. Adjustments totaling 5768,184 are hereby submitted for your consideration and will result in a total budget of \$159,133,460.

Responses to the questions from Council from the meetings on the dates enumerated above and any corrected pages to be included in the budget document will be provided to Council at the meeting on June 1, 2005. Since the budget does not need to be adopted until July 1, 2005, Council may want to consider continuing the budget meetings to June 15, 2005 (or later date if needed) in order to provide adequate time for your review and evaluation of the budget pages received at this or at any previous budget meetings.

Attachments related to the Appropriations Limitation calculation are attached herewith. Staff requests that the Appropriations Spending Limit be increased by \$3,899,179 to an amount of \$66,082,118.

FISCAL IMPACT: Not applicable

FUNDING AVAILABLE: Not applicable

James R. Krueger, Finance Director

APPROVED: 
Blair King, City Manager

RESOLUTION NO.2005-_____

DRAFT

A RESOLUTION OF THE LODI CITY COUNCIL ADOPTING THE 2005-06 OPERATING AND CAPITAL IMPROVEMENT BUDGET FOR THE FISCAL YEAR BEGINNING JULY 1, 2005 AND ENDING JUNE 30, 2006, AND FURTHER APPROVING THE 2005-06 APPROPRIATION SPENDING LIMIT

WHEREAS, the City Manager submitted the 2005-06 balanced Operating and Capital Improvement Budget to the City Council on May 11, 2005; and

WHEREAS, the 2005-06 Operating and Capital Improvement Budget was prepared in accordance with the City Council's goals, budget assumptions, and policies; and

WHEREAS, the City Council conducted public budget meetings on May 4, 2005, May 11, 2005, May 18, 2005 and May 24, 2005 at the Carnegie Forum; and

WHEREAS, the City Council is required to adopt the Appropriations Spending Limit for 2005-06; and

WHEREAS, the Appropriations Spending Limit and the annual adjustment factors selected to calculate the Limit are part of the Financial Plan and Budget.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Lodi as follows:

1. That the 2005-06 Operating and Capital Improvement Budget as proposed by the City Manager and amended by the City Council be approved as follows:

	City Manager		City Council

CITY MANAGER

Susan J. Blackston

CITY CLERK

D. Stephen Schwabauer

CITY ATTORNEY

May 4, 2005

Honorable Mayor and Members of the City Council:

This is to transmit the City Manager's Recommended Draft Fiscal Year 2005-2006 Budget and Financial Plan. This transmittal will provide an overview of the financial and service objectives of the City of Lodi and a budgetary estimate of the City's financial position. The Budget is a policy and planning document and is as accurate as possible at this point in time based upon the best available information. As in all planning documents, the Budget is a dynamic event, subject to change. During the course of the fiscal year, as conditions change or as more information is revealed, the Budget will be amended via City Council action to reflect the conditions and realities present at that point in time.

Budget Theme and Principal Objectives

The theme of the FY 2005-2006 budget is stability and reckoning; reckoning meaning to balance or settle accounts. Specifically with the General Fund, the City can no longer afford to rollover previous years' disparities between expenditures and revenues. The City's Comprehensive Annual Financial Report (CAFR) for FY year end 2004 stated on page 8 that the City's General Fund had no more than \$156,650 in undesignated and unreserved reserves. This amount is set in the context of a City Council policy that requires a General Fund reserve of 15 percent of operating expenditures, or approximately an undesignated unreserved amount of \$6 million. While the CAFR may have understated the actual amount the City has in undesignated unreserved reserves due to differences in definitions, the City's General Fund reserves are shallow under any condition.

Like the General Fund, the City Council has articulated a policy that the Electric, Wastewater, and Water Funds, maintain a reserve equal to 15 percent of operating expenditures. None of the above Enterprise Funds have adequate undesignated unreserved reserves to meet this goal.

The FY 2005-2006 General Fund budget proposes to stop the rollover of imbalances to future years and recommends that issues associated with revenues, rates, and costs within the Electric, Wastewater, and Water Funds be dealt with this year.

Exhibit A - 1

In brief, the following **are** the specific financial objectives for the fiscal year:

- Stabilize the General Fund – no further depletion of General Fund reserves
- Maintain the current range of services to the public
 - Establish a framework to meet the goal of a 15 percent reserve for the General, Electric, Wastewater and Water Funds
- Maintain personnel assets
- Lay the ground work for future financial stability

The approach to the budget is moderately conservative. Revenue estimates are slightly conservative while expenditure estimates **are** slightly liberal. The objective of this approach is to ensure that expenditures do not exceed revenues at the end of the fiscal year.

All Funds

The All Funds Budget, (all expenditures the City will make), for FY 2005-2006 is \$158,365,000. Note, in some cases the All Funds Budget represents funds transferred from one department to another and then subsequently spent, which accounts for the same funds being spent “twice”. The largest category **of** expenditures within the All Funds Budget is Electric Utility which represents 41 percent **of** all funds the City spends. This is followed by the General Fund which represents 28 percent of City expenditures.

General Fund

The FY 2005-2006 General Fund is \$43,843,000. This budget **as** proposed is \$4.7 million higher than the FY 2004-2005 expenditure budget; however, if one accounts for the transfers to other funds, which **are** \$3,680,000, the budget would increase by approximately only \$1 million, a 2.6% increase.

The keys to balancing the FY 2004-2005 budget **are**:

- Revenues
- Management of the work force
- Community Development Department **as a** cost center
- Maintaining Library expenditures at FY 2004-2005 rates
- Proposition 1A
- Expenditure reductions by departments across the board

Actual revenues in FY 2004-2005 will exceed revenue projections at the beginning of the year by approximately \$1.9 million. This is a better position for the City as it enters the fiscal year and helps to reduce the previously identified “budget gap”. For the FY 2005-2006, General Fund revenues are projected to increase by approximately \$5.5 million over FY 2004-05 Budget estimates, or approximately **14** percent. Property taxes reflect an increase of \$2,800,370 or 51 percent. The sales tax reflects a decrease of \$528,930 or 5 percent from FY 2004-05 Budget estimates.

The General Fund work force will maintain a vacancy factor of approximately 8 percent, 29 positions. This number may increase slightly during the course of the year, but the City has probably reached the maximum benefit it can expect from lay-offs through attrition without the need to cut or eliminate services to the public.

Management has been sensitive to employees and large scale lay-offs have been avoided. Unfortunately, three higher-paid employees (HR Director, EMT Coordinator, and Data Processing Programmer Analyst) have been released and a variety of part-time employee positions will be eliminated from the budget.

Vacant positions have been spread through all departments with the vacancy factor ranging from 4 percent in the Police Department to 16 percent in Finance. Vacancies are reflected from top to bottom. The vacancy factor at the Executive Management level is 13 percent, 11 percent in Mid-Management, and 9 percent in rank and file.

In order to help reach the goal of a 15 percent undesignated and unrestricted General Fund reserve, it is anticipated that the vacancy factor of 8 percent will be maintained for a two-year period, after which further evaluation will need to occur.

By establishing the Community Development Department as a cost center to be supported primarily by fees for service users, the General Fund has reduced \$283,000 in cost. The General Fund will contribute \$350,000 to continue to support those services which cannot or should not bear a charge.

In light of the significant sum of unrestricted and undesignated reserves in the Library Fund, \$757,000 (47 percent reserve of operating expenses), and in the absence of a statute that requires earmarked funds for the Library, it is proposed that the City's General Fund contribution for FY 2005-06 be the same as budgeted in the previous fiscal year. The public will not be affected by this budget decision and will continue to receive the high quality service from the Library that it has come to expect. The Library will continue to hold vacant two Library Assistant positions.

Proposition 1A

It should be pointed out that Proposition 1A, adopted by voters on November 2, 2004 has provided a degree of stability in budget preparation heretofore unknown in recent years. Proposition 1A, while it allows the State to hold a certain amount of local agencies Vehicle License Fee Revenues and accommodates the "Triple-Flip", ended the practice of State raids on local property tax and other revenues. In previous years, the lack of certainty during the time of budget preparation prevented sound assumptions and good decisions from being made. Proposition 1A does not solve all local government problems, but provides for a sense that local governments can know what to expect when budgets are prepared.

Personnel Costs

As the Council is aware, the City provides services to the public via personnel. Personnel costs represent 30 percent of the entire City budget and 77 percent of the General Fund Budget.

In recent years, attention has focused on the cost of personnel benefits. During the course of the year, attention will be given to seek ways to reduce the negative impacts associated with benefit costs; however, this statement needs to be balanced against an understanding that *some* benefits *are* considered **usual** and customary and are a cost of doing business. The cost of benefits is **38** percent of personnel costs.

Of note for the Council is the cost of the City's retirement program and health benefits. **PERS** costs are 15 percent of personnel costs or 26 cents for every dollar paid in salary and health insurance is 12 percent of personnel costs or 19 cents for every dollar paid in salary.

Utility Funds

The City Council is aware that costs associated with TCE/PCE clean-up have been advanced or pie-paid by the City's Water and Wastewater Utility Fund. These utility funds have, or are reaching, the maximum limit of costs that they can absorb without being replenished. As funds are spent they are being diverted from other needed uses, such as infrastructure replacement. The Manager will recommend that the Council give consideration this fiscal year to the steps needed to fund TCE/PCE clean-up and reimburse the Water and Wastewater for its depleted reserves. The unrestricted and undesignated portion of the Water and Wastewater Utility reserves are projected to be \$1,104,447 and \$857,160 respectively. This does not take into account the costs of clean-up associated with the Central Plume. While on the surface the Water Fund appears to be adequately funded, one is reminded that the rate structure was to provide funds for infrastructure replacement. Water rates cannot support both TCE/PCE clean-up and infrastructure replacement.

What may be the biggest surprise for the Council is the financial condition of the Electric Utility Fund. The costs of bulk power purchases have increased from a budgeted amount in FY 2004-2005 of \$32,650,000 to a budgeted amount of \$41,100,000. The Electric Utility Fund does not have the available fund balance to absorb this large increase in bulk power purchases. **Also**, due to the lack of reserves, the City should lock in the cost of power sooner than later. The City needs to mitigate the risks associated with rapid increases in power costs to the maximum extent possible. Currently, the budget shows a deficit position for Electric Utilities for the year end FY 2005-2006.

City Manager's Work Plan

A "City Manager's Work Plan" will accompany the **N** 2005-2006 Budget. This will be an organizational tool to assist and guide the City staff and the Manager with regard to work priorities and tracking significant and/or noteworthy projects. It is not a complete list of **all** efforts receiving the attention of the Council or staff but a reasonable guide of what the City Manager's work effort will be focused upon.

The Work Plan will include the following general categories:

- Economic Development
 - o Downtown, Hotel, Industrial
- Land Use
 - o General Plan, Annexations, Green Belt
- Finance and Administration
 - o Public Facilities Planning, Long Term Financial Planning, Purchasing System, Management/Peer Audit/Evaluation Program and Staff Development, Council Handbook, and Labor Negotiations
- Environmental
 - o PCE/TCE Clean-up
- Capital Projects
 - o Indoor Sports Center, Aquatics Complex, DeBenedetti Park, Library Facilities Plan, Replacement Program, Animal Shelter, Accessible City Facilities, Fiber Optic System, and Water and Sewer Upgrades
- Community
 - o San Joaquin Delta College, Citizen Outreach and Involvement
- Public Safety
 - o Property Maintenance and Code Enforcement, Paramedic Program

Future Issues

Nothing stays the same. Issues are already emerging that will require monitoring and attention. The following is a brief summary of some of these issues:

General Fund Reserve Goals – The budget anticipates that at the end of FY 2005-2006, the General Fund will have approximately \$1.7 million in undesignated and unrestricted reserve. To meet the Council's Policy of a 15 percent undesignated and unrestricted reserve, approximately **\$4.8** million more is needed. Work will be required to identify the means and methods to meet this goal.

Electric, Water, and Wastewater Funds Reserve Goals – The same as the General Fund, Electric, Water, and Wastewater have goals of 15 percent of operating costs in reserve. **Work** is needed to also identify how this goal can be met.

Preventative Maintenance and Replacement Plan – The current fiscal year is a one-year solution to the City's fiscal issues and to a certain unquantified degree, preventative maintenance **as** been deferred. Deferred maintenance and replacement of City assets is an issue that will be dealt with in subsequent budgets.

Property Appeals – If the real estate market should decline, it is anticipated that property owners will file "Proposition 8" appeals to lower their tax liability. If this case should develop, the City will need to exercise caution in relying upon property tax revenues from properties that ~~are~~ subject to downward reassessments.

GASB Rule – Accrued Retiree Health Care Costs – New accounting standards will require municipal governments with more than \$100 million in annual revenues to accrue costs for retiree health care benefits while the employee is employed by the City. No longer can the City promise future benefits and not set aside the funds to pay for retiree health care costs and create an unfunded liability. How Lodi will deal with this requirement is currently an unknown both in implementation and approach.

Acknowledgements

The budget was prepared with support of the City of Lodi Executive Management staff, specifically with the principle aid of Finance Director Jim Krueger and the support of Deputy City Manager Janet Keeter. Additionally, the budget could not have been prepared without the support of the rank and file employees. Finally, the Manager would like to thank the support and understanding of the City Council. The Budget has taken time to prepare. The support and understanding of the Council during this process is truly appreciated.

Respectfully submitted,

Blair King
City Manager

BK/sl

Attachment

- 1. GASB – research regarding raniifications for setting aside funds for post retirement benefits.**

The Governmental Accounting Standards Board (GASB) has **issued** two opinions on the subject of Post Employment Benefits. The timing for implementation of both of the pronouncements is for fiscal **years** beginning after December 1, 2006. The City of Lodi is not affected by either of the pronouncements since the post employment benefits **are** related to the conversion of accrued sick leave that is being handled in a way, which complies with a previous GASB pronouncement, so as to obviate the need for any additional accounting treatment in accordance with the more recent pronouncements. Essentially the conversion of sick leave to post employment health insurance benefits is accounted for in the accrued leave amounts (for those eligible for this benefit) at the end of each fiscal.

2. Police Department- Overtime for PD for DUI and data to support that the OT results in successfully reducing DUI's.

Following are responses from Police Chief Adams to the questions

DUI enforcement is the number one discretionary use of overtime hours. Most of the overtime hours of our budget involve many areas that are out of our control, such as: court overtime that is generated by arrestees going to court for a variety of reasons and crimes and incidents that occur at or near the end of a shift that require the officer to remain on overtime to complete their work. **Also** when we have a homicide or complex case that can require many additional hours of overtime. Also minimum staffing requirements also account for some uncontrollable overtime usage. These are the bulk of our overtime expenditures that are non-discretionary. Discretionary overtime would be things like DUI enforcement, gang operations, sting operations, and some staff assignments which are all planned events. **As** for the previous DUI cost sheet I provided they are all overtime hours.

- For a first offense DUI the court docket fine is \$2,600. The City of Lodi receives \$460. of that fine.

In 2001 we arrested 673 DUI's which would have possibly generated- \$309,580
In 2002 we arrested 618 DUI's which would have possibly generated- \$284,280
In 2003 we arrested 343 DUI's which would have possibly generated- \$157,780
In 2004 we arrested 321 DUI's which would have possibly generated- \$147,660

4. Public Works- Transit budget - Ridership details.

% of Revenue to Total Vehicle Miles for Dial-A-Ride	3.8 %	2.2 %	2.5 %	2.5%

(1) & (2): Ridership decline in 03/04 primarily due to the reduction in Special Service/Charters and the elimination of the daily program for Lodi Boys and Girls Club. Ridership decline in 04/05 primarily due to fare increase and reduced transfers from San Joaquin Regional Transit District.

(3) & (4): Increased revenue in 04/05 and projected in 05/06 as a result of the fare increase. This revenue does take into account the lower passenger counts.

5. Electric Utility Department – Street light program discontinuance or suspension in relation to budget situation and potential savings

City Manager King will respond in more detail to this question and you are referred to the attached detail discussion of that subject.

6. EUD – \$5.2 million Special Payments details and breakdown by bond issue date and use of proceeds.

See attached debt service schedule for fiscal year 05-06

7. HR – prepare a summary sheet of all proposed reclassifications for 05/06

See attached

8. CITY ATTORNEYS OFFICE – Discussion of Property and Liability and Workers' Comp numbers in budget document

Included in the non-departmental budget is an amount of \$300,000 available for allocation to departments such as the City Attorney for Property/Liability and Workers Compensation Insurance . The Finance Director recommends leaving the \$300,000 in the Non-departmental budget at this time and reallocating after a full accounting and allocation can be completed in conjunction with the fiscal year end closing process for 2004-05. The amounts included in the 2004-05 budget for PLPD were based on a preliminary allocation of these costs. The Finance Director will report back to the Council regarding this allocation subsequent to the year end closing of books for fiscal year 2004-05. And, an adjustment will be proposed during 2005-06 that will reallocate these costs to all departments. It is anticipated that this will not result in any change in the fund balance estimates nor will it result in any increase to the total general fund expenditures budget.

9. Electric Utility Department- Proposed reduction in travel and conferences budget.

The EUD training and conference budget has been adjusted to address the needs for budget moderation in that department. The cost of services allocation plan provides for the reimbursement of the City Attorney's office (as well as other General Fund Departments) for their expenses related to all elements of support

**10. Human Resources – “Other Benefits” – what is this line item?
Approximately \$4,000**

Other Benefits is an allocation of several health insurance related expenditure line items. On page 125 of section V, lines 8 (Account 8041 Retiree's Medical Reimbursement) \$448,710, line 11, \$110,615, line 12, \$21,700, line 13, \$11,280, line 18, \$25,100 and line 19, \$17,755 are all allocated to departments as “other benefits”. The amounts allocated in the 2004-05 budget were recorded as transfers and then adjusted to the other benefits lines in departmental budgets based on the number of full time employees as a percentage of total employees. This was a preliminary effort to allocate this group of expenditures to departments in 2004-05 and is the basis for allocation in the 2005-06 proposed budget. There will be additional allocations to this line item in some of the departments, which do not show any expenditures in this line item for the proposed budget, during fiscal year 2005-06. This allocation will be done after the close of the books for fiscal year 2004-05 and in conjunction with a more thorough review of these expenditures to ensure that the most appropriate method for allocation is followed.

11. PERS – What is the total increase in PERS City-wide?

	02-03	03-04	04-05	05-06
7121 Service contribution-PEW	2,368,718	3,358,782	5,283,088	7,249,339

Increase City Wide \$1,966,251 (7,249,339-5,283,088)

12. Information Systems Division – Analysis of cell phones expenses to see what options there may be including partnering with School District or another agency

Staff has and will continue to analyze cell phone options and alternatives.

13. ISD –Detail for sublet contract services

Orcom annual support contract	\$57,750
JDE annual support	29,012
BDC WebSmart	3,694
SafeStone - DetectIt annual maintenance	2,974
Angus-Hamer - annual firewall support	1,591
ASC - Sequel Viewpoint support	3,386
TAA tools for as400	709
HP service contract - firewall, Exchange servers	432
QuestView database maintenance software	377
TOTAL	\$99,923

14. Finance – Customer service options for cash payments at other locations such as at Lakewood Mall, Rancho San Miguel, Lowe's, PG&E, etc.

Staff will continue to explore all options for reducing foot traffic including payment over internet and pay stations at retail establishments

15. Parks and Recreations Fees – Playgrounds is listed in the budget document as generating \$443,650.

In accordance with the estimates provided by the department these estimates will remain **as** stated.

16. Cost of Services allocation details.

See attached worksheet.

Library	Literacy Project Coordinator	Literacy Services Coordinator	Currently a contract position	Mid-Management
Library	Administrative Clerk	Administrative Secretary	Reclassification	General Services

**FY 05-06
Proposed Staffing Changes**

Police Department:

1. **Special Services Manager** – the Police Department has one full time authorized position, the Police Volunteer Supervisor, who oversees, among other activities, the Police Partners Program. The functions and duties of the position have changed over the years, and it is recommended that the position be reclassified from Police Volunteer Supervisor to Special Services Manager.
2. **Parking Enforcement Assistant** – The Police Department currently uses a contract employee in the capacity of a Parking Enforcement Assistant. This contract employee works 40 hours per week and receives full benefits. This employee has worked as a Parking Enforcement Assistant contract employee for the City for four years.

Electric Utilities:

The Electric Utility Department presently has 59 budgeted positions in the 04-05 Budget. Sixty-two positions are being recommended in the Department's 05-06 Budget with an increase of three positions. This increase will transfer three long-term contract positions (4-7 years) to full time positions. The following additions, reclassifications are being included for approval:

1. **Sr. Power Engineer (1)** net increase: zero. The position of Manager of Business Planning & Marketing is being reclassified to Sr. Power Engineer. The additional Sr. Power Engineer position will be utilized for substation technical support, fiber optic system design, operation and system analysis.
2. **Utility Equipment Specialist (1)** net increase: one. Recommend the transfer of a 7-year contract position into a full time position.
3. **Electric Drafting Technician (1)** net increase: one. Recommend transfer of a 4.5-year contract position into a full time position.
4. **Electric Technical (1)** net increase: zero. The position specification is being revised to include fiber optic programming, testing and installation duties. In addition, this position will be used as a bridge of technical knowledge through future division retirements as well as technical support for communications, power and electrical control systems. The position was initially budgeted in the 04-05 Budget and unfilled due to the hiring hold.
5. **Energy Specialist (1)** net increase: one. Recommend the transfer of a 4-year contract position titled Programs Coordinator into a full time position. This position will be in the General Services bargaining group.

Information Svstems Division:

1. Information Systems Analyst – Data Processing and Information Technology sections were combined in 2002 to form the Information Systems Division. The merger did not result in any position title changes or reclassifications. Over the course of the past year and a half, staff began the process of changing select position titles so that they would reflect current job functions. Additionally, changing titles and modifying related job descriptions will help bring the titles into some form of standardization with other local IS organizations for ease of comparison. One reclassification is “ready to go” and the remainder of the reclassifications will be completed over the course of the fiscal year for possible recommended changes at the mid-year. Recommend reclassification of a Data Processing Programmer Analyst to an Information Systems Analyst. This position will be in the Mid-Management bargaining group.

Library:

1. Literacy Services Coordinator – The Literacy Project Coordinator manages and coordinates a program of 50-75 volunteers, 3 part-time staff members. Develops and provides training sessions for staff and volunteer tutors, promotes the program through public speaking, assesses students' needs and reading levels, etc. Currently the position is filled by a full-time benefited contract employee who has been serving in this capacity for 4 years. This service is a mainstay of library services and it is appropriate at this time to convert the position to a full-time regular position of Literacy Services Coordinator.
2. Administrative Secretary - Administrative Clerk assigned to the Library is functioning as and doing a majority of the same duties of the position of Administrative Secretary. The incumbent has been performing the secretarial functions for the Library Board of Trustees and Foundation Board as well as Library Administration. The incumbent has been receiving out of class pay at the direction of City Council at the February 2, 2005 Council meeting. At that meeting, Council also recommended that the request be brought back as part of the budget cycle.

Pending Reclassifications / Changes:

There are a number of other reclassification studies that have recently been requested by various departments. These requests will be placed in queue for possible study during the first half of the fiscal year with possible recommendations coming forward during the mid-year budget adjustments.

Studies to be placed in queue include:

1. Information Systems Division: Data Processing Manager, Sr. Programmer Analyst, Information Systems Specialist, Information Systems Coordinator Reclassifications
2. Library: Library Assistant Reclassifications
3. Public Works: Water/WasteWater Division Reorganization
4. City Clerk's Office: Deputy City Clerks Reclassification
5. Community Development: Associate Planner Reclassification
6. Human Resources Reorganization

WEWORKANDUM

From *Blair Kina*, City Manager

City of Lodi - City Hall
221 W. Pine Street
Lodi, CA 95240
Phone: (209) 333-6700
Fax: (209) 333-6807

TO: Honorable Mayor and Council

DATE: May 27, 2005

SUBJECT: Electric Utility Department - Streetlight Project Status Report

During the course of the presentation of the proposed FY 2005-06 Budget, the City Council requested a report on the status of the Electric Utility Department's (EUD) Streetlight Project.

Attached is the requested report.

The Council will note that the remaining costs of the streetlight project, estimated to be \$920,000, are proposed to be paid from annual maintenance capital funds over a two year budget cycle, and not from bond proceeds. The Council could elect to defer this capital program in order to reduce Electric Utility's FY 2005-06 expenditures; however, capital maintenance costs are less than one and a-half percent of EUD's budget.

Item I-6

Exhibit C - 1

ELECTRIC UTILITY DEPARTMENT

Memorandum

TO: Blair King, City Manager
FROM: Alan N. Vallow, Electric Utility Director
DATE: May 25, 2005
SUBJECT: Streetlight Completion Project

One of the City's goals has been to provide streetlighting in unlit portions of the City. This project, known as the "Streetlight Completion Project" is estimated to **install/replace** 1000-1200 lights over a period of 3-5 years at an original budget estimate of \$3.5 - \$4 million. To date four **(4)** phases have been completed with 326 steel standards and 354 concrete standards being installed in various unlit areas of our City. The final phase is currently under engineering review. At completion, additional 270 units are expected to be installed. An additional 200 units will be replaced as shown below.

The City's streetlight system consists of approximately 6200 luminaires mounted on various types of standards and poles. 200 of these streetlight supports are painted steel standards all of which are in excess of 30 years old. These standards are failing at the base from corrosion to varying degrees depending on their location in the field. The Department has been monitoring the rate of deterioration during the past decade and has determined that corrosion has advanced to a point where the strength of the standards is reduced sufficiently to recommend a phased replacement program. Based on the data collected the location of the most severely deteriorated standards is known and, therefore, the replacement program would be phased in accordance with the level of deterioration on a four-year program.

The Electric Utility Department recently changed the specifications for streetlighting systems. The new specifications require protection, in the form of fuses and new wiring, to be installed at each streetlight. The main benefit derived from these modifications is an increase to public safety.

The Streetlight Completion Project is currently funded through the Electric Utility Department's operating budget with reimbursement from existing capital funds derived from bonds originally issued in 1999. It is the belief of the Electric Utility Department Management, that completion of the final phase of the streetlight completion project along with replacement of deteriorating standards and new required grounding methods can be accomplished through rates and not through use of existing Capital (Bond) funds. Management also believes that such funding will result in delays not to exceed 18 months.

DESCRIPTION OF 1999 PROJECTS

The 1999 Projects include projects include line extensions, **new** west side substation, substructures, various subdivision expansions, dusk to dawn street lighting, and expenditures associated with transmission and distribution system capacity enhancements such **as** substation improvements, and various vehicle and support equipment **purchases** and the construction of a new electric service center, all **as** listed in the following pages of this Exhibit **2**.

The 1999 Projects shall also include **any** capital additions to or replacement of the Electric System **as** to which the City has received an Opinion of **Counsel** to the effect that payment of the costs of such capital addition or replacement with moneys in the Improvement Fund will not, in and of itself, adversely affect the exchanges of the Interest Installments (or the portion of the Principal Installments of the Schedule B Payments in excess of the Initial **Amount** thereof) from **gross** income for federal income **tax** purposes.

Projects:

Industrial Sub. 12kV feeder to Stockton at Neuharth
McLane Sub. 12kV feeder to Evergreen at Low. Sac.
Underground Tie, Rivergate – River Pointe Subdivisions
Distribution Substation, West Side including land, design, power transformer
Industrial Sub. 12kV feeder to Guild and Kettleman
Henning Sub. 12kV feeder to Low. Sac. and Cochran
60 kV transmission line from Industrial Sub. to west side
12kV underground feeder, Hamey, Ham to Mills and Mills, Hamey to Century
McLane Sub. extend 12kV bus, add breaker and get-a-way
Industrial Sub. 12kV feeder to Turner and Guild
Industrial Sub. Power transfer #2 incl. Circuit breakers, relays, etc.
Install Capacitor Banks
New developments (line extensions, services, substructures and metering)
Distribution System Improvements (historical)
Communication/data system, fiber optics
Street lighting design
D to D lighting
Substation capacity increases

Equipment/Facilities:

Service Center including land design, construction, equipment
SF6 Gas reclamation equipment
Relay test set
Training facility incl. vaults, poles
Power transformer LTC oil filtration equipment (2)
Power Quality analyzer
High current test set
Lock boxes for locked meter locations
Remote meter reading system
Voltage recording equipment
Engineering design/analysis software
Underground pulling equipment (substation)
Infrared imaging equipment
Overhead pulling equipment
Circuit breaker performance test set
Data line test set
Laserjet printer (Engineering)

Vehicles:

Bucket truck 65 A
Walk in van
Flat bed truck (new crew)
Bucket truck (street light maintenance)
Forklift

Projects (replacement)

Reconstruct overhead add neutral to LeBec CT
Killelea Sub 12kV open bus, control bldg. 60kV bus, breakers, land, study
Killelea Sub 12kV get-a-ways
McLane Sub 12kV get-a-ways
Industrial Sub. infrared detection upgrade
Transformer upgrade, F&M Bank, Rite Aid
Reconstruction get-a-way/distribution at MSC facility
Downtown underground reconstruct incl. land, switches, transformers, cable
Padmount switch upgrade (8)
Reconstruct #6 cu. overhead (various locations)
Reconstruct sec. underground, Royal Crest, Tejon, Vineyard, English Oaks

Equipment/Facilities (replacement):

Work stations meter shop (2)
Personal computer upgrade (Engineering, Operations, Meter Shop)
Electric meter test bench
SCADA and UPS systems upgrade/replacement
Electric meter test set, portable
Copy Machine (Engineering)
Underground pulling equipment

Vehicles (replacement):

Mid size cargo van #09049
Bucket truck #09046
Flat bed truck #09050
Flat bed truck #09093

Other	150,000	150,000	150,000	150,000	150,000
Total	\$4,700,000	\$6,850,000	\$10,950,000	\$2,200,000	\$1,950,000

Source: City of Lodi.

The capital expenditures are for capital maintenance items, substation upgrades, a new distribution substation, transmission lines to interconnect existing 230kV transmission lines in the Lodi area, and related system reliability projects. The City anticipates funding such costs from bond financing proceeds in the early years and revenues from amount of electric system revenue certificate. City is considering delivery of approximately \$45 million principal on turbine project. See "PLAN OF FINANCE" of certification in early 2002 to finance the costs of a combustion turbine project. See "PLAN OF FINANCE" Additional financing anticipated herein.

Rates and Charges

The City has the exclusive jurisdiction to set electric rates within its service area. These rates are not subject to review by any state or federal agency.

The City's fiscal year 2000-01 average rate per kWh for residential service was 11.0 cenn. The City's fiscal year 2000-01 average rate for commercial and industrial service was 8.6 cenns per kWh.

PUBLIC UTILITIES

ACTIVITY: Administrative
DEPARTMENT: Electric Utility

PROGRAM: Electric Services
FUND: Electric Fund

ACTIVITY DESCRIPTION

The Administrative activity provides organizational oversight and administrative support for the two primary Electric Department Divisions: 1) Business Planning and Marketing and 2) Electric Services. The functions of public education, marketing, media services and residential public benefit programs are also within this activity. Activity goals are: 1) adopting "Best of Industry" business practices; 2) maintaining a high level of benefit to the community; and 3) integrating citywide policy objectives into departmental operations. This activity has four major elements:

- Direction and leadership. Focus the efforts and contribution of staff on exemplary levels of customer service in a growing competitive environment (25% of activity).
- Positioning the Department to remain competitive through education and marketing activities including multi-media and special events (25% of activity).
- Active participation in legislative and regulatory advocacy programs (25% of activity).
- **Community relations.** Develop a participatory form of community involvement and relations by engaging in a variety of new partnerships, public benefit programs and other strategic activities, which reflect customer expectations and community values (25% of activity).

(1) In-lieu Taxes 160655 is budgeted at a level consistent with recent Bond OS where the MCA is on base rates only.

GENERAL GOVERNMENT

ACTIVITY: City Attorney
DEPARTMENT: City Attorney

PROGRAM: Legal Services
FUND: General Fund

ACTIVITY DESCRIPTION

The City Attorney reviews, monitors and evaluates the conduct of City activities for conformance with laws, regulations, policies and rules; represents the City in civil litigation; and ensures that violators of City laws are prosecuted. Activity goals are: 1) reduce the City's liability exposure; and, 2) provide timely and complete legal advice and services. This activity has five major elements:

- Legal review and advice. Review Ordinances, Resolutions, and contracts and advise on employment issues (25 percent of the activity).
- Advise and assist the City Council. Orient new Council Members on the services and functions of the City Attorney's Office; advise and assist the City Council and staff with suggested and existing legislation, policies and regulations; process citizen requests; anticipate problems; and, assist in resolving conflict (45 percent of the activity).
- Legal representation. Represent the City at Council meetings; defend the City against litigation and claims; and, represent the City with other government agencies (30 percent of the activity).
- Document preparation. Prepare Ordinances, Resolutions, contracts, legal pleadings, reports, correspondence and other legal documents (10 percent of the activity)
- Enforcement. Enforce and prosecute violations of the Municipal Code (10 percent of the activity)

MAJOR ACCOMPLISHMENTS

FY 2004-05 Accomplishments

- o Settled Busy Bee and Central Plume PCE/TCE litigation
- o Reached Interim Settlements in Northern and South Central Western Plumes
- Settled Lehman Brm. claim against the City
- o Settled Stockton SOI litigation
- o Hired excellent Deputy City Attorney
- Resolved multiple Big Box related disputes
- o Drafted Skate Park Ordinance
- Established new Utility Rate Increase Protocol

MAJOR OBJECTIVES

Fiscal Year 2005-06 Emphasis

SIGNIFICANT EXPENDITURE AND STAFFING CHANGES

- Three full time positions frozen reducing staffing levels by 20%
- Reviewed, updated and distributed job tasks.
- Eliminated training and conference expenditures and reduced others.

MAJOR ACCOMPLISHMENTS

Technology:

- Cut department labor costs by implementing remittance processing system software.
- Complied with national "Check 21" image processing of checks.
- Completed analysis of individual customer payment trends to improve collections.
- Provided increased customer and staff access to electronic media.
 - Computerized policy and procedures manual to supplement staff desk manuals.
- Tested, installed and trained staff on major ORCOM upgrade.

Customer Service

- Improved inter-department efficiencies with centralized vault deposit and mail collection.
- Decreased customer traffic by installing courtesy lobby counter.
- Installed internal & external express payment drop boxes.

MAJOR OBJECTIVES

- 2005-06 Continue in-house staff training on all system upgrades.
- 2005-06 Explore alternative methods of tax collection and identification.
- 2005-06 Continue to evaluate customer service needs and payment alternatives

GENERAL GOVERNMENT

ACTIVITY: General Support
DEPARTMENT: Administration

PROGRAM: Non-Departmental Services
FUND: General Fund

ACTIVITY DESCRIPTION

The General Support activity programs and administers indirect costs not easily charged to Operating activities or projects. The activity goal is to establish cost effective budgeting and accounting for indirect costs. This activity has six major elements:

- City memberships. Fund for the cost of memberships in organizations which represent, assist, provide training and promote the interests of the City as a whole
- Audit services. Fund for the cost of the City's annual and interim audits by outside auditors
- Sales Tax Consultant. Fund for the cost of the City's quarterly information on sales tax
- Property tax administration. Fund County's charges for tax administration (assessment, collection and payment)
- Telephone services. Fund and plan for local and long distance telephone services
- City Wide Utilities. Fund for the cost of electric, gas, wastewater, water and refuse for governmental activities

CAPITAL IMPROVEMENT BUDGET REQUEST

ACTIVITY:	Transportation
REQUEST TITLE	Traffic Signal/ Street Lighting and Safely Improvements

PROJECT DESCRIPTION

These projects include construction of new traffic signals, street lighting fixtures, modifications to existing traffic signals, replacement of existing signal cabinet/controller equipment, and other miscellaneous improvements and maintenance as described below:

- New Traffic Signal and Street Lighting Installation: Lockeford Street/ Sacramento Street and **Ham Lane**/ Harney Jane.
- Signal Modifications to Existing Traffic Signals: The modifications to the existing traffic signals are determined by the annual review and evaluation of the intersection collision diagrams in the Intersection Study List (ISL). Specific improvements and locations are as follows: Church Street/ Lockeford Street {convert fixed-time (no vehicle and pedestrian detection) operation to a fully-actuated operation}, Lodi Avenue/ Crescent Avenue (modifying the eastbound/westbound approaches by separating phases/approaches), and Lodi Avenue/ **Stockton** Street (installing separate turn lanes for eastbound and westbound approaches, new detectors in left turn lanes, and no parking zones to accommodate the turn lanes).
- Existing Cabinet/ Controller Equipment: Cabinet and controller equipment replacement is requested at two signalized intersections with equipment over twenty years old. The locations are Church Street/ Lockeford Street, and Elm Street/ Ham Lane.
- Miscellaneous Improvements: The following are pedestrian and other safety upgrades to the existing traffic control systems: 1) At **Elm** Street at **Loma** Drive (install a lighted crosswalk with warning devices); 2.) **Elm** Street at Mills Avenue (install signal standards with street lighting to accommodate a span wire all-way red flashing beacon; and 3.) On Mills Avenue and Elm Street at various locations, install flashing yellow beacons in advance of the Reese Elementary School zone.
- Preventive Signal Maintenance: To contract the preventive maintenance and repair services for the forty-five signal and lighting systems.

PRIMARY OBJECTIVE

1. To improve traffic **flow**, delay and safety conditions on the street system.
2. To install new traffic signals per the City's Signal Priority System and as directed by City Council
3. To reduce or eliminate collisions by implementing improvements at the existing traffic signals.
4. To install **pedestrians** improvements near Reese Elementary School.
5. To reduce or eliminate collisions at an existing multi-way stop intersection.
6. To reduce the City's liability exposure and equipment failures.

EXISTING SITUATION

- Staff maintains a list of proposed signal locations. The intersections meet Caltrans minimum traffic signal guidelines and are ranked based on a priority system previously approved by City Council. The Lockeford Street and Sacramento Street **is** on this list as well as a mitigation measure for the Lodi Parking Structure. Plans have been designed for the Lockeford Street/ Sacramento Street intersection and are awaiting Transit funds. Ham Lane and Harney Lane intersection **is** on the Council approved Signal Priority List (number 1 of 10).
- Staff annually updates the Intersection Study List, a ranking of existing traffic signals by accident rate. **All** three intersections ranked high on the Intersection Study List (ISL): Crescent Avenue/Lodi Avenue (1.87 acc/mv), Lodi Avenue/Stockton Street (**1.54** acc/mv), and Church Street/Lockeford Street (1 **.46** acc/mv).
- At eleven intersections, the signal system equipment is over twenty years old and, pans and support services are no longer available. Timely equipment replacement avoids long term disruption in the case of equipment failure.
- City staff is in the process of receiving grant funds for pedestrian improvements for Elm Street and Mills Avenue as described above.
- The City's electrician's provide the annual traffic monitor testing, however, are unable to provide scheduled maintenance inspections.

8

2005-2006 Financial Plan and Budget
CAPITAL BUDGET REQUEST

ACTIVITY: Public Works Dept. - Engineering Survey
REQUEST TITLE: Total Station - GPS Capable

REQUEST SUMMARY

This request is to fund the replacement of the City's 20-yearold survey instrument (total station) with Leica 1200 Series Total Station with Global Positioning Satellite capabilities. The new equipment is needed due to the suddenly diminished accessibility to replacement parts and maintenance for existing equipment. The equipment cost includes training. A subscription rental charge for a base station can be absorbed by the current operating budget.

PRIMARY OBJECTIVE

Primary object is to upgrade obsolete equipment. Secondary objectives include the establishment of a Geographic Information System (GIS) control network and increased productivity resulting from time saving in collecting and disbursing survey data.

PRIOR WORK

City staff has set up the MapGuide system that contains substantial information that is not spatially fixed to known control coordinates. Project surveys require control to be brought to a project site from blocks away at considerable time expense. Existing equipment has been continually used for 20 years.

SUMMARY OF FACTORS DRIVING THE REQUEST FOR CHANGE

- Existing equipment has become obsolete
- GIS Control Network will substantially enhance the future GIS capabilities of the City
- GPS Total Stations are cost competitive with conventional equipment

ALTERNATIVES

Continue using the existing equipment until it can no longer be repaired at the risk of that occurring at a critical point in a project.

MEMORANDUM

From *Blair King*, *City Manager*

City of Lodi - City Hall
221 W. Pine Street
Phone: (209) 333-6700
Fax: (209) 333-6700

TO: Honorable Mayor and Members of the City Council

DATE: June 1, 2005

SUBJECT: City Manager's Work Plan

Attached you will find the City Manager's Work Plan for Fiscal Year 2005-2006. In an effort to keep you informed on the current progress of the attached projects, updates will be provided monthly.

BK/si

Item I-6

Exhibit E - 1

**City Manager's Work Plan - A General Policy Level Work Plan
of the Most Significant and/or Noteworthy Projects**

The City Manager's Work Plan is an organizational tool to assist staff in time management, focusing, and tracking significant and/or noteworthy projects. It is not a complete list of all efforts receiving attention of City staff at any moment.

Economic Development

Project or Issue	Status
<u>Downtown Business Recruitment</u> – Identify businesses that will add to the “tenant” mix of downtown Lodi – work with current and prospective property owners to site and locate business within the downtown core.	Developing strategy to identify those businesses that are likely candidates to locate in downtown Lodi and/or businesses that will contribute to the economic vitality of downtown Lodi, and willing property owners and potential developers. Assemble an integrated staff team to address downtown business recruitment. Drafting a proposal to incent wineries to locate tasting rooms downtown.
<u>Hotel Development</u> – Over \$100,000 is spent to attract visitors to Lodi. A portion of the return on investment in tourism promotion is the collection of Transient Occupancy Tax (TOT). (This is only a portion of the return on investment in tourism; other benefits are realized in increased commerce, jobs, and community prestige.) Lodi receives less than \$350,000 in TOT. This amount could be doubled through an increase in transient beds within the community.	G-REM will be constructing a Hampton Inn Suites, 90 – 100 rooms and employing 25 -30, next to its new office building on Beckman Rd. The facility will include meeting spaces and is expected to open by the end of this year. CDD is also trying to determine what the allowed incentives are for business development (low-mod job creation) through the CDBG program.
<u>Industrial Recruitment - Recruitment</u> of quality jobs and businesses to Lodi.	Identify potential business and obtain contact names and addresses.

Land Use

Project or Issue	Status
<u>General Plan Update</u> – A comprehensive review and update of the City's General Plan.	A project timeline and approach is currently being drafted.
<u>Annexations</u> – Two significant annexations, 155-acre Westside Annexation and 264-287 acre Southwest Annexation with accompanying subdivision and development proposal.	Contract planning services paid by the applicant approved by Council on 5/04/05.
<u>Green Belt</u> – Task Force charged with responsibility to explore and investigate the variety of models available and utilized in various cities to accomplish the community separator/open space goal and make a recommendation to the City Council for the option that works best for Lodi.	This issue is pending a proposal from the landowner's group, following a tentative agreement between Stockton and Lodi regarding a mile-wide strip at Armstrong Road. Meetings between the County and City are expected to occur during the month of June. Research is currently on-going by staff on the development of an agriculture mitigation fee.

Finance and Administration

Project or Issue	Status
<p>Public Facilities Planning – A variety of City facilities are in a state of flux with the fate or future use unknown. Some assets, such as the old Public Safety Building, need rehabilitation; other City assets, such as the City's property east of Highway 99 need development. The City is paying rent for offices while other City property is vacant. A Master Plan and holistic approach is needed to address City facilities planning.</p>	<p>Old Public Safety Building (PSB) – The Lodi Public Safety Building (PSB) is an approximately 10,000 square feet deteriorated structure that fails to meet state essential building standards. Prior to 2004, the PSB housed the Lodi Police Department, Lodi Fire Department's Station 1, and a San Joaquin County court. The building needs extensive renovations. The City is negotiating with the County and State to relocate the court into the new police station. Estimated costs to renovate the PSB range from \$5.26 million to \$3.15 million if Fire Station One is relocated to a new location.</p> <p>Fire Station #1 – Concept drawings complete. The costs to relocate a new fire station at Lockeford and School Streets is approximately \$3.15 million.</p> <p>Fire Station #2 – Concept drawings complete. Currently, Fire Station #2 does not meet essential facility standards. The station is in poor condition and in need of repair. Proposal to relocate Station # 2 east of Highway 99 costs an estimated \$2.0 million.</p> <p>HUD Corp. Yard – Design Concept.</p> <p>Parks and Recreation Admin. Bldg. – 1995 study complete will need updating.</p> <p>Fire Stations 5 and 6 – Subject to discussion.</p> <p>Other Facility Needs – Other public facility needs include Finance Department, Fire Department Administration.</p>
<p>Long Term Financial Planning – A longer term view, strategy, and alternatives need to be developed to address the City's future financial needs. Longer term revenue projections are needed as well as exploration of service delivery and revenue alternatives.</p>	<p>Steps and timing to evolve in the next month in relation to the budget process for 2005-06:</p> <ol style="list-style-type: none"> 1. Hire consultant to assist in the development of plan and essential elements. There is no funding currently in the budget; will explore Impact Mitigation Fee funding. 2. Develop budget modules in JD Edwards. 3. Develop space needs, staffing needs, debt financing and capital needs in conjunction with General Plan update. 4. Set up initial meetings with key staff to develop key elements of work product and responsibilities for staff completion. 5. Establish timeline for completion of long-term financial plan by January 2006. <p>Incorporate long-term plan in the 2006-07 budget process, which will begin early January 2006.</p>
<p>Purchasing System Update – The purchasing</p>	<p>On March 8, 2005 during a Shirtsleeve Session</p>

system, a core bureaucratic program of the City, no longer meets the basic requirement of a well-understood policy that efficiently protects the public's assets and allows business to be conducted in a fair and reasonable manner.	Council was briefed on the proposed changes to the Purchasing Ordinance. In addition to Council comments, department reps have provided comments to the Finance Department. The City Attorney reviewed the proposed document and provided feedback on the format. Next step will be to prepare a final draft for City Manager review and Executive Management Team discussion. Council action will then be necessary.
Management/Peer Audit/Evaluation Program – Performance evaluation is a key to determine the efficiency of a City in providing services. Work is needed to establish performance standards and to compare against these standards.	Need to assemble samples of policies and forms and develop recommendations for City Manager's consideration.
Labor Negotiations – MOU's There are a number of Memorandum's of Understanding that will expire in 2005, 2006, and 2007. Personnel assets are key to the delivery of City services. Care is required in developing labor contracts.	Following are the MOU's and respective expiration dates: <ol style="list-style-type: none"> 1. IBEW (Electric Utilities) 12/05 2. Mid-Management 12/05 3. PD Mid-Management 6/06 4. Maintenance & Operators 6/06 5. General Services 6/06 6. Fire Fighters 6/06 7. Fire Mid-Management – unrepresented 8. Confidential – unrepresented
Staff Development – Succession planning and staff development is needed in order to provide for a well-trained and prepared work force as the "baby-boomers of the 40s and 50s reach retirement age.	Staff provided a copy of the PD's Assessment of Succession Planning for the Lodi Police Department dated June 2001. Plans will be solicited from other communities.
Council Handbook – Lodi does not have a comprehensive guidebook of standard operating procedures and written principles to guide Council action and to direct staff in relationship to supporting the City Council.	On hand: <ul style="list-style-type: none"> • Resolution 2004-282, Rules of conduct of meetings, proceedings, & business • Resolution 2004-115, Code of Ethics & Values • LMC, Chapter 2.04, which addresses Council meetings STATUS – Examples of general Council procedures/policies from other cities have been solicited and are being reviewed. NOTE: Some cities have such information adopted by Resolutions, others incorporated individual procedures within an administrative policy manual, and some have informal handbooks/guidelines.

Environmental

Project or Issue	Status
PCE/TCE Clean-up Plan and Implementation Staff is preparing a long-term plan for resolving the litigation, and financing and implementing the clean-up.	Litigation Status: The Central and Southern Central Western settled on an interim basis that will perform study work until approximately spring of 2006, when final settlement talks will resume. The Southern Plume is gearing up for trial and the litigation and technical teams are preparing a discovery plan for implementation by mid May of
PCE/TCE Clean-up Plan and Implementation	

(Cont'd)-

2005.

Clean-up Status: Remediation work has begun in the Eastern (Busy Bee) plume. Investigative work in preparation for remediation is underway in the Central, Northern and South Central/Western plumes.

Financing Status: Cost estimates and cash flow needs (given available data) are being prepared in order to evaluate financial impacts, all in preparation for discussion with the City Council in the summer of 2005.

A recommendation to hire **professional services** to prepare alternative rate pro-formas will be considered by the Council on June 1, 2005.

Capital Projects

Project or Issue

Status-

Indoor Sports and Activity Center – The work consists of developing a one-acre site to accommodate the indoor sports center. The scope of work will include demolition of existing structures, engineered imported fill material, site grading, underground utilities, and construction of a 40,000 square-foot two-story indoor sports facility. Indoor space will include two full-size hardwood basketball courts, one full-size taraflex floor basketball court, permanent and roll-away bleachers, one taraflex floor aerobics room, one taraflex floor multi-purpose room, one rock climbing wall, restrooms, locker rooms, cafe concession area, kitchen area, storage rooms, reception area, administration office space, outdoor seating area, streetscape, irrigation and planting.

ELS Consultants have completed approximately half of their contract agreement with the City. The contract has been suspended due to budget considerations.

ELS Consultants has provided and completed the following items:

- a) Planning Indoor Sports Center
- b) Campus Master Planning
- c) Schematic Design
- d) Reimbursables

City Expenditures to date: \$478,000 (Land Purchase, Geotechnical Investigation and Structural Investigation of the "Old Fire House" – Not all land has been purchased for the project site. The City needs to acquire the southeast parcel of the site, which currently is a tow shop business.

As funding becomes available, the Indoor Sports Center project may proceed. Completion of the construction documents and the purchase of the additional parcel is required. At this time, the sports center costs are estimated at \$10 million excluding land purchase. Total build out of the facility is approximately a year and a half once construction commences.

Aquatics Complex – The work consists of developing a seven-acre aquatics complex site. The scope of work will include site grading, underground utilities, one 50-meter competition pool, one zero-entry activity pool with play equipment, and one 25-meter instructional pool with waterslide feature. Other work will include
Aquatics Complex (Cont'd) –

ELS Consultants have completed and provided City staff with 100% construction drawings and project specifications. ELS and the City have suspended remaining work due to budget constraints.

ELS Consultants has provided and completed the following items:

5

the installation of a poolhouse building which would include pool equipment area, administration office space, restrooms, locker rooms, concession stand building, meeting room, picnic area, site furniture, security lighting, fencing, parking lot, concrete flat work, concrete pool decking, irrigation and planting.

- a) Planning
- b) Schematic Design
- c) Construction Documents
- d) Reimbursables

City Expenditures to date: \$428,000.00
Currently, the proposed 7-acre site has not been purchased or annexed into the City. The City Council will be reviewing the development proposal of the Westside Annexation, the site of the proposal.

Work on the Aquatics Complex site and project could begin anytime after the City acquires the land and funding. At this time, costs to build the complex are estimated at \$7 million, not including the land purchase. Total build out of the facility would be approximately one year, once construction commences.

DeBenedetti Park – The work consists of developing a 49-acre park/detention basin site. The scope of work will include finish grading, construction of three 90-foot lighted baseball fields, one lighted multi-use (football/soccer) field, two 60-foot lighted baseball fields, and two lighted soccer fields. Other work will include the installation of two handicap accessible playground areas, play equipment, lighted pathways, basketball court, entry monuments, site furniture, picnic areas, restroom facilities, concession stand building, maintenance building, well site, underground utilities, parking lot, concrete flat work, fencing, roadways, irrigation and planting.

Stantec Consulting is in the process of completing the revisions of their 100% construction documents which includes construction drawings and project specifications. Stantec has indicated that all documents will be received by the end of May 2005.

Stantec Consulting has provided and completed the following items:

- a) Conceptual Design
- b) Construction Documents
- c) Reimbursables
- d) Change Orders 1 & 2

City Expenditures to date: \$582,000.00

Currently, AM Stephens Construction of Lodi is under contract to rough grade the entire park site. Phase I of the rough grading is scheduled to be completed by October 31, 2005; and phase II of the grading is scheduled to be completed by October 31, 2007.

Phase I park construction could begin anytime after October 31, 2005.

Library Facilities Plan – The Lodi Public Library Board of Trustees commissioned the development of a Library Facilities Master Plan that was completed in 2002. The Plan outlines the expansion of the existing building with a two-story addition that nearly doubles the size of the facility. The proposal includes the acquisition of additional property. Facility features traditional Library Facilities Plan (Cont'd) –

In January 2005, the Library Board commissioned the development of plans for upgrading the interior of current facility to maximize functionality of space and create a safe and inviting atmosphere. Library staff continues to dialog with Community Partnership for Families representatives to provide library services in the proposed Family Resource Center to be built in Blakely Park.

service areas plus a coffee shop, Friends office, teen area and small study rooms. The plan also calls for the creation of a "satellite branch to meet the library needs of the Eastside population.

The Replacement Program – Lodi has various public facilities assets in different stages of life expectancy. Lodi does not have a comprehensive plan to guide the City in financial decisions with regard to planning for the replacement of these facilities. For example, although the Police Station is a new facility, actions need to be taken now to ensure that the building can be repaired or replaced in the future or this facility will be in the same condition as the Grape Bowl, a City and community asset that has no funds ear-marked for its rehabilitation, nor any plans to secure funds, but is approaching the end of its useful life.

Animal Shelter – The Animal Shelter is being considered in the context of a new multi-use municipal service center. The Animal Shelter is old, small and crowded. It needs to be addressed in a comprehensive fashion.

A staff team will research during fiscal year 05-06 best management practices in developing strategies to replace various facilities.

The first meeting of the Lodi Animal Shelter Task Force was held on December 7, 2000.

In August 2001 Rental of office trailer to add more staff space and allow existing office space to be use for needed cat holding area. The original lease was for 24 months, anticipating the new facility would be ready near the end of the lease. The trailer continues to be leased at this time.

February 6, 2002 Council authorized a professional services agreement with George Miers & Associate: for the space needs, master planning and schematic design of a new animal services facility.

On June 19, 2002 Council approved the concept design (schematic) and authorized the complete design contract with George Miers & Associates for new animal services facility to be located on Guild Ave.

On October 16, 2002 Council approved plans and specifications and authorized advertising for bid for the 20,000 square foot (building) design. The plans were anticipated to be ready for bid in January 2003 with an estimated construction budget of \$3,900,000

Design work was placed on "hold" in the Spring of 2003 due to budget conditions.

On April 20, 2005 Council terminated design agreement between George Miers & Associates and the City. The City has plans and specifications which are approximately 80% complete.

Public Works is currently preparing site plans for the temporary modular office for the current shelter.

Accessible City Facilities: **ADA** Transition

A survey of accessibility deficiencies was

<p>Plan - The Americans with Disabilities Act of 1990 requires that facilities operated by public entities be accessible to the public. A threshold requirement is the preparation and adoption of a Transition Plan. The Transition Plan will require policy level consideration of some of the City's older public facilities.</p>	<p>completed in February 2005 by each of the responsible City Departments. The Transition Plan shall include a schedule for achieving compliance for those projects that will take longer than one year. The City's ADA committee was reactivated and is currently working on the plan.</p>
<p>Utility Capital Projects - A variety of physical improvements have been proposed and are planned for the City's utilities. These utility projects include water system pipeline replacement project and fiber optic development.</p>	<p>Electric Utility Department is currently implementing the development of a fiber optic project. More information will be provided with future updates.</p> <p>The Public Works Department is replacing the water distribution system. More information will be provided with future updates.</p>

Community

Project or Issue	Status
<p>Delta College Site in Lodi – The project consists of attempting to locate a satellite campus in the Lodi Area. Delta College is currently seeking candidate sites. A satellite campus could house programs related to hospitality, agriculture, and police and fire training facilities.</p>	<p>Staff has attended informational meetings on Delta College's bond funding for possible satellite campus opportunities in the Lodi area. The Council will receive a presentation from Delta College officials on June 7, 2005.</p>

Public Safety

Project or Issue	Status
<p>Property Maintenance and Code Enforcement Program – A comprehensive review and update of the existing Code Enforcement Program operated through the Community Improvement Division.</p>	<p>CDD is working with the City Attorney's Office to develop alternative remedies for code enforcement cases in order to allow more effective enforcement and place the burden of the cost for those services on those that are causing the demand for services. This will include an Administrative Citation/Hearing process, civil penalties and a more active role from the City Attorney's Office in pursuing legal action in cases of non-compliance. Should be presented to Council at a Shirtsleeve Session in June and returned to Council for action in July.</p> <p>CDD has been working with LPD-Partners to develop a project that enlists the Partners to verify compliance for nuisance complaints and to monitor vacant properties to make sure that they are not posing a nuisance to the community. Presented to Council in April, with implementation date of June 1.</p>
<p>Paramedic Program – The paramedic program is designed to enhance the delivery of emergency medical services to the community by the Fire Department. The program was approved by the Council in October, 2002.</p>	<p>Paramedic program developed, Department has four paramedics. Needs: funding for paramedics, Advanced Life Support application, and EMS Coordinator.</p>
